PENNY DEE

THE DISOBEDIENT BLONDE

WHY BOOK PENNY

WHY BOOK

Fluent in AI, and in people

I run real businesses on AI every day, and I translate it in plain English for the audiences technology tends to leave behind, women especially, without losing the human thread that actually earns trust.

Before all of this I spent years in award winning technology sales. So I speak with the authority of someone who has built the businesses, made the sales, written the book and done the broadcasting, not someone reporting from the sidelines.

On stage I am direct, funny and culturally sharp, intelligent without pretence, and I make the future feel less frightening and more like something a room can lead.
